

High Rise OHE

High rise OHE of 7.45 m was erected in Jakhapura-Daitari section of ECoR & trial successfully conducted in July 2008 with electric Locomotives. Pantograph of the locomotive was suitably modified. The success of these trials has paved the way for hauling double stack containers loads with electric locomotives. The work for high rise OHE was executed by the unit of CPM/RE/Bhubaneshwar.

Trials in progress/planned

1. Contact wire with indigenous CCC rods.
2. Modular OHE on Northern Railway.
3. Gas based ATD on Eastern Railway.
